Education Practice Management System

- ❑ **Simple**
- ❑ **Integrated**
- ❑ **Seamless**

## About iSkool

- ❖ iSkool is a comprehensive education practice management software. Committed to simplify the day-to-day administrative process of your school, iSkool facilitates transparency and helps the management team to concentrate more on the core objectives of the education institution.
- ❖ iSkool is not a software that needs to be installed in your premises. It is completely web based and to access your account of iSkool, all you need is a computer and an internet connection- just like the way you access your e-mails. With no software, there is no maintenance costs too.

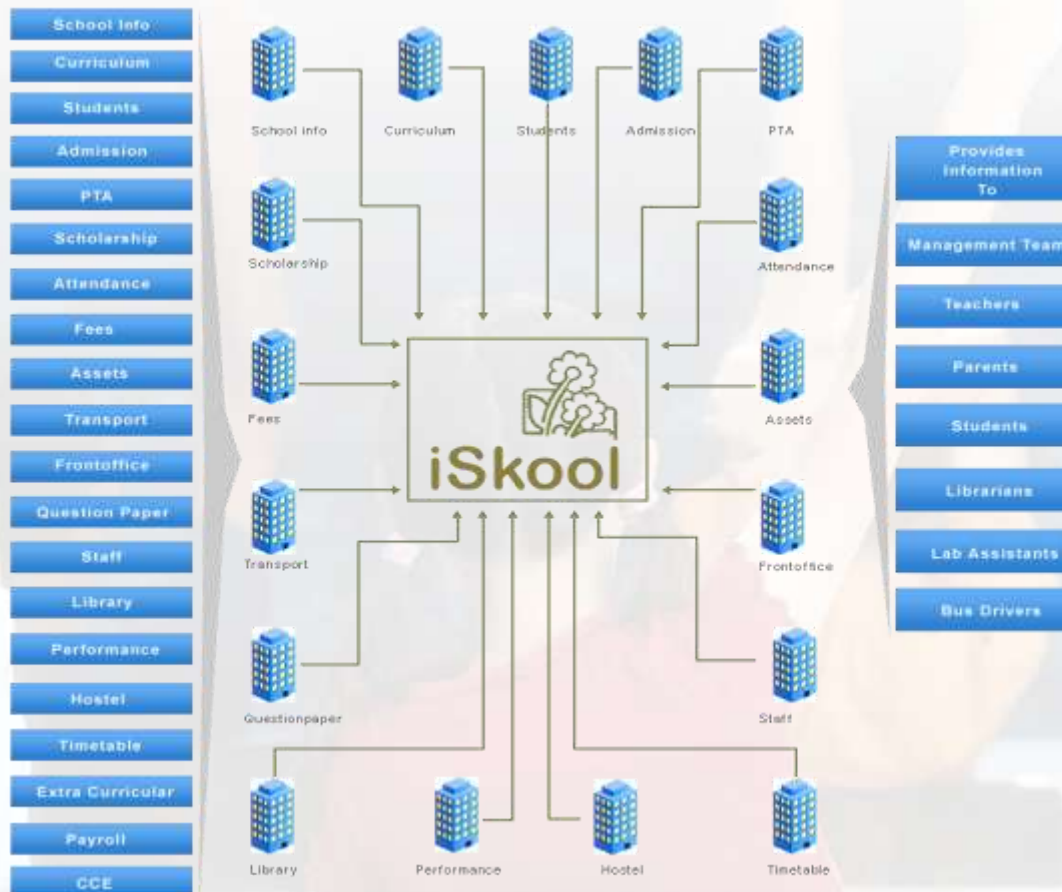

## Salient Features

- ❖ iSkool eliminates the pain endured by schools in their day to day operations by focusing on the Schools Management Practice.
- ❖ iSkool ensures that these processes are smoothly managed with little or no effort.
- ❖ iSkool specially focuses on the security of the school data.
- ❖ iSkool does not warrant any huge upfront deployment costs.
- ❖ iSkool does not require a large team of professionals to manage the maintenance tasks of any given School.
- ❖ iSkool would assist the Schools Faculties, Students and the Parents in getting an up to date information at their finger tips.

## Why iSkool

- ❖ **Pay as you Go concept-** With this web-hosted solution pay only for the features that you use.
- ❖ 360 degree package for management, teachers, Librarians, Front office executives and parents. You don't have to buy any other software.
- ❖ **Customization-** If there is any change in the process, we make sure that we accommodate the same in the system.
- ❖ **No training** required- i-skool is a very simple system and the users will not require any training.
- ❖ **Faster implementation-** Our expert team will ensure that the system is up and running in **less than 2 weeks**
- ❖ Extensive report options- **100 + reports** and a completely customizable option, iSkool is a comprehensive practice management solution for your school .
- ❖ Hand holding- Our team ensures that the **implementation is done smoothly** and constantly assist you during the first month .
- ❖ Dynamic- We make sure that the product is up to date providing you with **life long updates** .
- ❖ Domain expertise- **developed by IT experts** with deep domain knowledge governed by a panel of leaders from the industry Comes from the school of trained professionals in the IT industry- we take the complexity out of the process and give you a simple solution. After all, simplicity is the greatest sophistication.
- ❖ **Secured information-** Our secured system ensure the security of your data. Role based access enables confidentiality of information.
